

10th May 2010,

Dear Parents/Carers,

I would like to bring to your attention an extremely worrying trend among our older children but I think it needs to be 'nipped in the bud' before it spreads any further or causes anymore upset.

We have had a small number of incidents involving social chat sites such as MSN where upsetting comments have been made by some individuals about other individuals at our school. These comments have been very unpleasant and are not welcome as they have had repercussions within school during our working day.

I would ask all parents to remain vigilant when their children are using such social networking sites such as MSN.

Any further incidents that occur and can be traced will be dealt with very seriously particularly if they involve 'Cyber Bullying'.

In the meantime I would ask all parents to continue to be vigilant as to what sites their children visit online and encourage all of our children to use Fronter if they have a burning desire to socialise online.

Yours sincerely

Mr. P. McDowell
Headteacher
